COLUMBUS' DEATH.

The great world-famous, to whose memory much honor is due, and given, was in his time variously known as Christopher Columbus, Cristobal Colon and Christopher Columbus. Colon is the name which appears on the lower lid of the small leaden case which contains all that now is left of the mortal part of the great navigator.

He was cut with age, had work and had treatment, died on May 20, 1492.
